**LIGHT SERIES SPIRAL PIPE WITH WIRE GUIDE
TECHNICAL DATA SHEET**

SPECIFICATIONS

- Compression Resistance: 320N
- Impact Resistance: 2 kg.
- Min. Operation Temperatur: – 15°C
- Max. Operation Temperature +60°C

SIZES

SIZE	Inside mm Ø	Outside mm Ø	Packing (mt.)
14	14	18,1	100
16	16	19,8	100
18	18	22,1	50
20	20	24,2	50
25	25	28,9	50
32	32	36	50

USAGE AREAS

Flexible spiral pipes with guide wires Since there are elbows and similar points at the turning points There is no need to use parts. Like this It saves labor and time. Internal nominal diameters specified spiral pipes inner diameter Ø14 - Ø32 mm. between Production is made in nominal diameters.
