

EURO PLASTIK

To All World

**MEDIUM SERIES HALOGEN FREE NON-FLAMMABLE COIL PIPE
TECHNICAL DATA SHEET**

SPECIFICATIONS

- Compression Resistance: 700N
- Impact Resistance: 2 kg.
- Min. Operation Temperatur: – 15°C
- Max. Operation Temperature +60°C

SIZES

SIZE	Inside mm Ø	Outside mm Ø	Packing (mt.)
14	10,2	14	100
16	12	16	250
18	14	18	200
20	15,6	20	150
25	20	25	100
32	25	32	100
40	32	40	100
50	41	50	100
63	54	63	50

USAGE AREAS

Excessive external pressure and mechanical stress Where there is, in buildings, residences, prefabricated structures, In all flush-mounted and surface-mounted applications, concrete inside, plasterboard, wall or suspended ceiling The formation of halogen and acid gas is undesirable Used in all structures, prevents the spread of flame and the gas released does not adversely affect human health. It is resistant to breakage, crushing and impacts. It is produced in coil form and is also airy. Convenience in cable pulling due to production, such as labor savings and minimal use of additional parts It provides many advantages. TS EN 61386-22 It is produced in accordance with the standard.
