

**EURO PLASTIK**

To All World

**LIGHT SERIES HALOGEN FREE NON-FLAMMABLE COIL PIPES  
TECHNICAL DATA SHEET**

## SPECIFICATIONS

- Compression Resistance: 1250N
- Impact Resistance: 2 kg.
- Min. Operation Temperatur: - 15°C
- Max. Operation Temperature +60°C

## SIZES

SIZE	Inside mm Ø	Outside mm Ø	Packing (mt.)
14	14	18	100
16	16	19,6	100
18	18	21,8	50
20	20	23,8	50
25	25	28,4	50
32	32	35,6	50

## USAGE AREAS

-Spiral that can be produced in Orange, Blue, Gray pipes suspended ceiling, plasterboard wall and flush-mounted safely and trouble-free in light installations It is produced for use. Nominal external diameters specified spiral pipes inner diameter Ø14 - Ø32 mm. Production is made in nominal diameters between; Moreover Manufacturing can be done as desired. Spiral pipes do not have the flexibility feature Elbow and similar fractures at turning points there is no need to use it. Thus, labor and saves money. The gas released in case of combustion affects the human system does not negatively affect.
